

Publications

1. Shekyan H.G. Vibrate creep and relaxation in construction elements of electric machines. *Izv. VUS–OV, “Electrotechnika”*, Novocherkask, 1988, p.57-61.
2. Shekyan H.G., Khalatyan E.P. Change of mechanical properties of material at high frequency dynamic actions. *Izv. NAN RA b GJUA, seriya tech. nauk, v.LVII, №2, Yerevan, 2004, p.199-207.*
3. Shekyan H.G. Vibrate creep of bolts at dynamic actions. *Sb. nauch. trudov ErPJ, seriya Machinostroeniye, v.1,1976, p.51-53.*
4. Shekyan H.G. Vibrate creep of rotor machines elements. *Trudi Vsesoyusnoy konferensi «Dinomicheskie regzima electrichestsich mashin i electropriborov»*, Kaunas, 1988, p.1-9.
5. Shekyan H.G., Zakharyants V.V. Loss of stability of rotor in magnetic field. *Materials of V International Conference «Problems of dynamics of interaction of deformable bodies. Gitutiun NAS RA 2005. p.343-345.*
6. Shekyan H.G. Reliability of bearing assembly of electrical machines GJUA, serie of techn. sci. v.43. №1, Yerevan, p.36-38.
7. Shekyan H.G., Oganesyanyan H.V. Oscillations of rotor on rolling contact bearing. *Proc. of Eng. Acad. of Armenia. v.3. №1. Yerevan 2006. p.117-120.*
8. Shekyan H.G., Oganesyanyan H.V. Reliability of bearing assembly of rotor machines *Inf technology and management. №4. Erevan 2010. p.254-258.*
9. Shekyan H.G., Zakharyants G.V. Protection of contemporary sensible apparatus from dynamic actions. *Gitutiun NAS Ra Yerevan. 2003. 148p.*
10. Shekyan H.G. *Dynamics of rotor machines. Gitutyun NAS RA Yerevan 2004. 330p.*
11. Shekyan H.G., Zakharyants V.V. The vibration of rotors on the rolling contact bearing by radial backlash *Proceedings of VI International Conference “The problems of Dynamic of interaction of Deformable media”*, Yerevan, 2008, pp.446-456.
12. Shekyan H.G., Khalatyan E.P. The changes of the mechanical properties of the material on the high frequency dynamic action. *Izv. NAS AR and SEUA. s.t.s. vol. LVII, N2. Yerevan, 2004, pp.199-207.*
13. Shekyan H.G., Beluyan Z.A. The calculations of reliability and longevity of bearing assembly of the generators, *Izv. NAS AR, Mechanics, vol.57, N3, Yerevan, 2004, pp.66-69.*
14. Shekyan H.G., Khalatyan E.P. The factors, acting on the vibroactivity of the rotor machins. *Izv. NAS AR and SEUA. s.t.s. vol. LIII, N2. Yerevan, 2000, pp.142-145.*
15. Shekyan H.G., Nazaryan E.A., Hovanisyan H.V. The vibrations of the rotor passing on the bearing by zero radial backlash. *Proceedings of International conference “Topical problems of continuum mechanics”. vol.2, Yerevan, 2010, pp.231-285.*
16. Shekyan H.G., Nazaryan E.A. Nonlinearity merciality rolling feasibility of the shaft. *The materials of the International Conference part II, Izd. “Dizak prus”, Stepanakert, 2009, pp.217-222.*

17. Shekyan H.G. Technological factors, acting on the dynamic of the high-velocity rotors. Proceedings of the International conference “Technologies and Technics of the automatizations – 2009” Yerevan, 2010, pp.129-133.
18. Shekyan H.G., Kletsin U. Gevorkyan V.R. Distribution of the presses on the supporting surface of the ending coil of the cylindrical springs of compressing. Proceedings of the International conference “Technologies and Techniques of the automatizations – 2009” Yerevan, 2010, pp. 133-136.
19. Shekyan H.G., Khalatyan E.P. Subharmonic resonance in the rotor machines. Izv. NAS AR and SEUA. s.t.s. vol. LIX, N1. Yerevan, 2006, pp.19-24.
20. Shekyan H.G., Khalatyan E.P. The lost of the stability of the flexible twisting rotors in the magnetic field. Izv. NAS AR and SEUA. s.t.s. vol. LIX, N3. Yerevan, 2006, pp.462-464.
21. Shekyan H.G., Khalatyan E.P. Subharmonic vibrations the rotors on the roling contact bearing. Izv. NAS AR and SEUA. s.t.s. vol. LVI, N1. Yerevan, 2007, pp.204-208.
22. Shekyan H.G., Zakharyants V.V. The lost of the stability of the rotors electrical machines’ in the magnetic fields of the stators. Izv. NAS AR Mechanics, vol. 60, N2. Yerevan, 2007, pp.110-113.
23. Shekyan H.G., Zakharyants V.V. Rotation of the flexible shaft-rope in the rigid tub-shells in the account of the friction. Information Technologies and Management. Yerevan, 2002, pp.65-77.
24. Shekyan H.G., Beluyan Z.A. The influence on the safety of the characterizing work periods of the generators by power till 100kwt. Reports NAS AR vol.104, N1, Yerevan, 2004, pp.43-46.
25. Shekyan H.G., Zakharyants V.V. About asymptotical stability of the rotors, twisting on the non-linear supports. Information Technologies and Management. N1, Yerevan, 2006, pp.32-35.
26. Shekyan H.G. On the calculation of vibrations of the bar systems in the account of dissipative properties of dempfers. Izv. AS Arm. SSR. vol.XXVIII, N1, Yerevan 1985, pp.3-7.
27. Shekyan H.G. On the question of determination of the dempfer coefficients in the amortizing systems. “The problems of mechanics of deformable bodies. Izd. “Gitutiun” NAS AR. Yerevan, 2003, pp.340-347.

Total number of publications is over than 100.
